

AUTOMATIONS FOR SOLAR FARM GATES UP TO 3.5 METER WIDE

Gates R US | Ph.: 9758 7157
sales@gatesrus.com.au
www.gatesrus.com.au

Factory 5/14 Edina Road
Ferntree Gully
Victoria, Australia 3156

- BILL4024 (RHS or LHS)**
- 1xHEADY24 CONTROL BOARD**
- 2xREMOTE CONTROLS**
- SUN KIT (With Batteries)**

2xREMOTE CONTROLS

Rolling Code 2 Channel Remote black.
433.92MHz

BILL4024 (RHS or LHS)

- 24 Vdc irreversible electromechanical geared motor for Intensive use.
- Anti-crushing system with amperometric sensor.
- Prepared battery back up system.
- Quick and easy to install, thanks to the reduced size and installation requirements.
- Available in right or left version

1xHEADY24 CONTROL BOARD

HEADY CONTROL BOARD

SUN KIT (With Batteries)

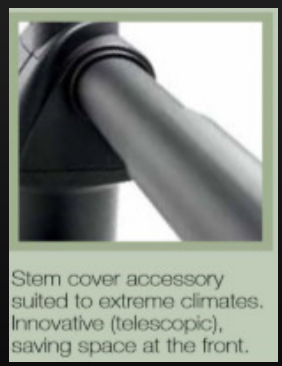

BENINCA KSUN SOLAR KIT SYSTEM

Key-operated unlocking system accessible from top: Perfect also in areas where there is limited space

High quality metal gear guaranteeing strength and reliability

Stem cover accessory suited to extreme climates. Innovative (telescopic), saving space at the front.

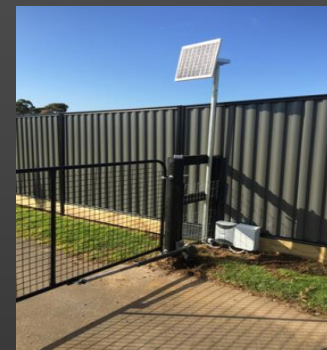

2 x 7.5A Predator AGM Batteries

KSUN SOLAR SOLUTIONS

RESIDENTIAL, COMMERCIAL & CUSTOMIZED

SUN KIT and its Options

PRACTICAL & ECOLOGICAL

SUN SYSTEMS is the perfect solution for installing automated mechanisms in place where there are no source of electricity and without having to spend money on costly construction.

TECHNOLOGY and EVOLUTION

- The display panel allows operators to monitor important data and statistics at all times.
- Instant values on battery and solar panel voltage.
- Number of days the system has been in operation.
- Instant values on the current generated by the solar panel and the batteries.
- Error messages related to over-current battery issues.
- Verification of battery charge status.
- It is possible to connect to up to **3 solar panels** to the control panel and batteries of varying capacities **(7-50 Ah)** can also be used making this the market leader in **24 volt solar gate motor power generation** and suitable for small access systems right up to heavy industrial gate access systems.
- This system will operate both our Heady24 and Brainy24 Vac control boards and all of our 24 Vac slide range of motors.

Thanks to the cards low energy consumption levels in stand-by mode, the system is able to manoeuvre in hours of the day or periods with less than ideal solar radiation conditions.

Solar Panel

BENINCA KSUN SOLAR KIT SYSTEM

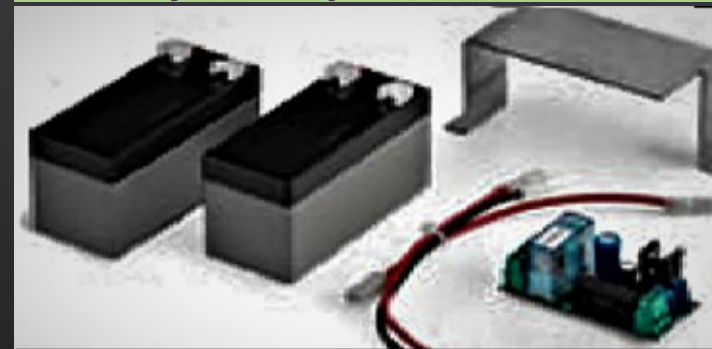

BENINCA SOLAR CONTROLLER

Optional

BENINCA COLSUN
 Housing unit for KSUN and battery

Battery Backup and Accessories

Battery Charger Kit for Heady24 control box. Comes with cby.24 v battery charger, 1.2A.h batteries and battery holder brackets.

Battery Back up for BYOU Range, lithium batteries with high quality charger card

2 x 7.5A Predator AGM Batteries
